Ordnance Survey Licence AC0000808122.

Contains OS data © Crown copyright 2025.

Zone of Theoretical Visibility (ZTV) has been generated using Ordnance Survey Terrain 5 digital terrain model (DTM) which does not take into account the screening effects of vegetation, buildings or other structures.

The ZTV is based upon a combination of Figures 6.2A, 6.2B, 6.2C, 6.2F and Permanent Compounds from 6.2D; refer to these figures for additional information.

All heights mentioned are above ground level (AGL) unless otherwise specified.
ZTV assessment considers the curvature of the earth.
