

March 2025

# Glen Earrach Pumped Storage Hydro

Environmental Impact Assessment Report

Volume 3: Figures

Glen Earrach Energy Ltd

# Volume 3: Figures

## Table of Contents

### Chapter 1: Introduction

- 1.1 Site Location Plan

### Chapter 2: Project and Site Description

- 2.1 Environmental Constraints
- 2.2 Utilities
- 2.3 Above Ground Infrastructure
- 2.4 Below Ground Infrastructure
- 2.5 Site Design - Pre- Construction Phase Plan
- 2.6 Site Design - Construction Phase Plan
- 2.7 Site Design - Operational Phase Plan
- 2.8 Development Cross Section
- 2.9 Headpond Arrangement Plan
- 2.10 Headpond Cross Section
- 2.11 Headpond Embankments Typical Detail
- 2.12 Headpond Borrow Pit Plan and Section
- 2.13 Upper Control Works Plan
- 2.14 Upper Control Works Section
- 2.15 Lower Control Works - 3D Visualisation
- 2.16 Lower Control Works Plan
- 2.17 Lower Control Works Section
- 2.18 Dry Tunnel Plan and Section
- 2.19 Spillway Section
- 2.20 Valve Cavern Access Tunnel Plan and Section
- 2.21 Tunnel Portal Plan and Section
- 2.22 Waterways Plan and Section
- 2.23 Power Cavern Plan
- 2.24 Power Cavern Section
- 2.25 Valve Cavern Plan and Section
- 2.26 Indicative Construction Compound Layout
- 2.27 GIS Switchyard Plan
- 2.28 Temporary Workers Accommodation Plan
- 2.29 Temporary Workers Accommodation Section
- 2.30 Temporary Core Path Diversion
- 2.31 Excavated Access Track Detail
- 2.32 Floating Access Track Detail
- 2.33 Watercourse Crossing Detail

### Chapter 3: Evolution of Design and Alternatives

- 3.1 Design Evolution: Design I Pre-Feasibility
- 3.2 Design Evolution: Design II Feasibility
- 3.3 Design Evolution: Design III Scoping
- 3.4 Design Evolution: Design IV Post-Scoping
- 3.5 Design Evolution: Design V Post-Public Consultation
- 3.6 Design Evolution: Design VI Design Freeze

### Chapter 6: Landscape and Visual

- 6.1 Topography
- 6.2A Zone of Theoretical Visibility – Headpond and Embankments
- 6.2B Zone of Theoretical Visibility – Lower Control Works

- 6.2C Zone of Theoretical Visibility – Secondary Bund
- 6.2D Zone of Theoretical Visibility – Construction and Permanent Compounds
- 6.2E Zone of Theoretical Visibility – Construction Tracks
- 6.2F Zone of Theoretical Visibility – Permanent Tracks
- 6.2G Zone of Theoretical Visibility – Operational Elements
- 6.3 Special Landscape Areas and Operational Zone of Theoretical Visibility
- 6.4 Landscape Designations and Operational Zone of Theoretical Visibility
- 6.5 Landscape Character Types and Operational Zone of Theoretical Visibility
- 6.6 Local Walking Route, Recreational Routes, Core Paths and Operational Zone of Theoretical Visibility
- 6.7A Viewpoints and Operational Zone of Theoretical Visibility
- 6.7B Viewpoints and Operational Zone of Theoretical Visibility
- 6.8 Cumulative Schemes (Scenario 1) and Operational Zone of Theoretical Visibility
- 6.9 Cumulative Schemes (Scenario 2) and Operational Zone of Theoretical Visibility

### Chapter 7: Terrestrial Ecology

- 7.1 Northern Highlands Natural Heritage Zone
- 7.2 European Sites: Special Areas of Conservation
- 7.3 Sites of Special Scientific Interest, Ancient Woodland and Important Invertebrate Areas
- 7.4 Terrestrial Ecology Survey Areas and Camera Trap Locations
- 7.5 Habitats
- 7.6 National Vegetation Classification
- 7.7 Peatland
- 7.8 Notable Plants and Species-rich Habitats
- 7.9 Potential Groundwater Dependent Terrestrial Ecosystems (GWDTE)
- 7.10 Otter Survey Results and Incidental Records
- 7.11 Water Vole Survey Results and Incidental Records
- 7.12 Pine Marten, Badger and Red Squirrel Survey Results and Incidental Records
- 7.13 Incidental Records of Other Important and Notable Species.

### Chapter 8: Ornithology

- 8.1 Northern Highlands Natural Heritage Zone
- 8.2 Ornithology Filed Survey Areas
- 8.3 Vantage Point Viewsheds
- 8.4 Statutory Designated Sites for Ornithology
- 8.5 Moorland Breeding Bird Survey Territories - Waders, Waterbirds and Grouse
- 8.6 Moorland Breeding Bird Survey Territories - Passerines
- 8.7 Breeding Season VP Flight Lines - Wader, Waterbirds and Grouse
- 8.8 Breeding Season VP Flight Lines - Raptors
- 8.9 Non-Breeding Season VP Flight Lines
- 8.10 Breeding Diver and Grebe Survey Waterbodies

### Chapter 10: Water Environment

- 10.1 Surface Water Receptors
- 10.2 Groundwater Receptors
- 10.3 Private Water Supplies
- 10.4 Watercourse Crossings

### Chapter 11: Flood Risk & Water Resources

- 11.1 Site Waterbodies
- 11.2 Loch Ness Waterbodies and Hydro Schemes

**Chapter 12: Cultural Heritage**

- 12.1 Heritage Assets within the Site and the 1 km Study Area
- 12.2 Designated Heritage Assets Within the 3 km Wider Study Area Adopted for Assessing Impacts on Setting
- 12.3 Designated Heritage Assets Within the 3km Study Area Adopted for Assessing Impacts on Setting, along with the Zone of Theoretical Visibility (ZTV)

**Chapter 13: Access, Traffic & Transport**

- 13.1 Traffic and Movement Study Area
- 13.2 Traffic Survey Locations 2024
- 13.3 Injury Accident Locations 2020-2023
- 13.4 Construction Traffic Forecast

**Chapter 14: Noise & Vibration**

- 14.1 Sensitive Receptors Considered as Part of the Noise and Vibration Impact Assessment
- 14.2 Long and Short Term Sound Monitoring Locations
- 14.3 Road Traffic Noise Study Links

**Chapter 15: Geology & Ground Conditions**

- 15.1 Topography
- 15.2 Bedrock Geology
- 15.3 Superficial Geology
- 15.4 Peat Probing Survey Results
- 15.5 Peat Depth Interpolation Plan

**Chapter 16: Socioeconomics, Tourism and Recreation**

- 16.1 Socio-economic, Recreation and Tourism Receptors
- 16.2 Outline Access Management Plan Recreational Routes and Paths

**Chapter 18: Forestry**

- 18.1 Loch Ness Woodland Proposed Felling Requirements
- 18.2 Track Felling Requirements
- 18.3 Mitigation Plan
